Introduction

YASS allows you to scroll through our endless collection of 249 movies without having to waste hours of your time watching the actual movie. Our movie streaming service has a special function for those in a relationship. You already spend so much time waiting for her to make up her mind about where she wants to eat, now you can choose her mood in our “In A Mood” page and it will narrow down your movie choices to just 16 or less movies. This makes the decision process quick and painless for all involved.

Yet Another Streaming Service(YASS) allows you to:

- Scroll through an endless collection of 249 movies
- Choose a movie from our Recommended List that is made specifically for the user
- Search through our collection of movies using keywords, actor’s names, director’s names, or genres in the search bar
- Change your name, email, and password conveniently on the account page
- Scroll through your viewing history composed of every movie that you’ve watched
- Choose a mood from the “In A Mood” page that will give you 16 or less movies to choose from

The Yet Another Streaming Service (YASS) is accessible using Java 1.8 and SceneBuilder. This was required for the class so it was the best option for the interface.

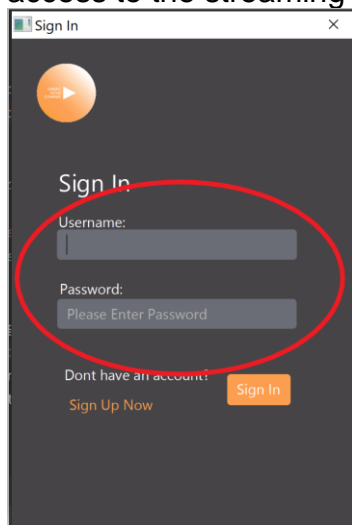

Getting Started

System Requirements

Java SE Runtime Environment 8

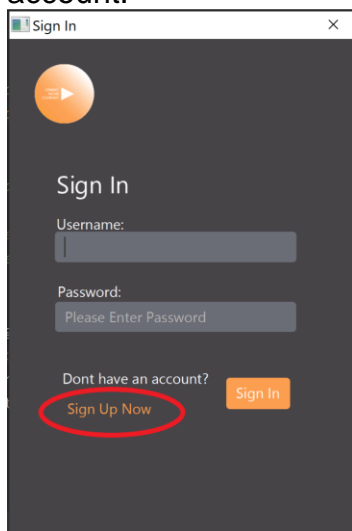

Quick Start

1. Begin by entering your login information on the sign-in page to gain access to the streaming service.

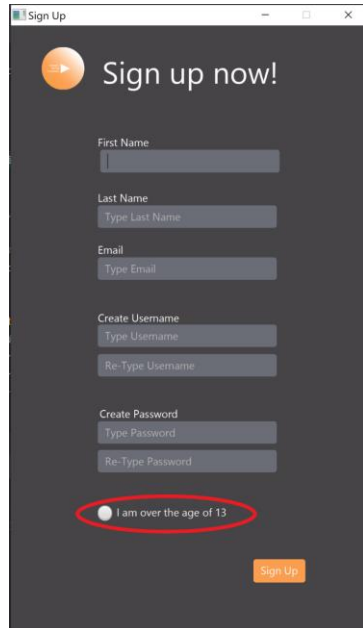

A screenshot of a web application window titled "Sign In". The window has a dark gray background. At the top left is an orange circular button with a white right-pointing arrow. Below it, the text "Sign In" is displayed. Underneath, there are two input fields: "Username:" and "Password:". The "Password:" field has the placeholder text "Please Enter Password". Below these fields, there is a link "Dont have an account?" and a "Sign Up Now" link. To the right of the "Sign Up Now" link is an orange "Sign In" button. A red circle is drawn around the "Username:" and "Password:" input fields.

2. If you are new to YASS, click on the Sign Up Now button to create a new account.

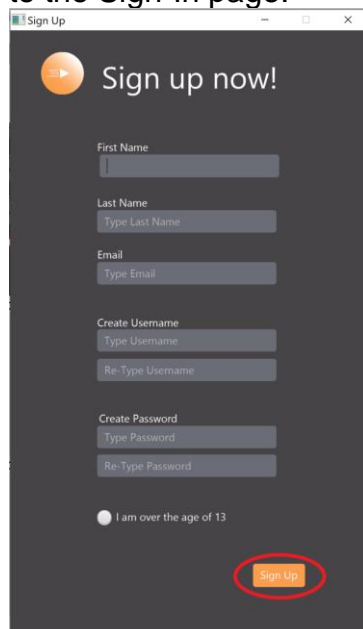

A screenshot of the same "Sign In" web application window. In this view, a red circle is drawn around the "Sign Up Now" link, which is located below the "Dont have an account?" link and to the left of the "Sign In" button.

3. Fill out all of the required information on the sign-up page to create a new account. You must be 13 years of age or older to create a new account.

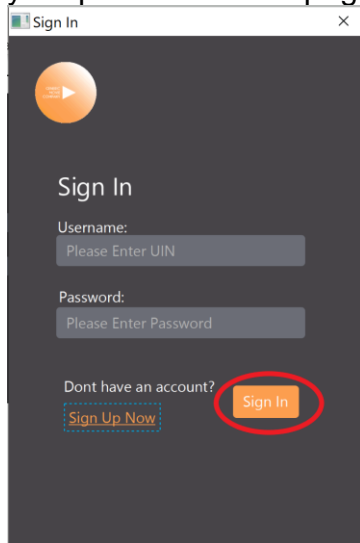

A screenshot of a web browser window titled "Sign Up". The page has a dark background and a light-colored header with a play button icon and the text "Sign up now!". Below the header, there are several input fields for user information: "First Name", "Last Name", "Email", "Create Username" (with "Type Username" and "Re-Type Username" sub-labels), and "Create Password" (with "Type Password" and "Re-Type Password" sub-labels). At the bottom, there is a radio button next to the text "I am over the age of 13", which is circled in red. A "Sign Up" button is located at the bottom right of the form.

4. Click the Sign-Up button to create your account and it will bring you back to the Sign-In page.

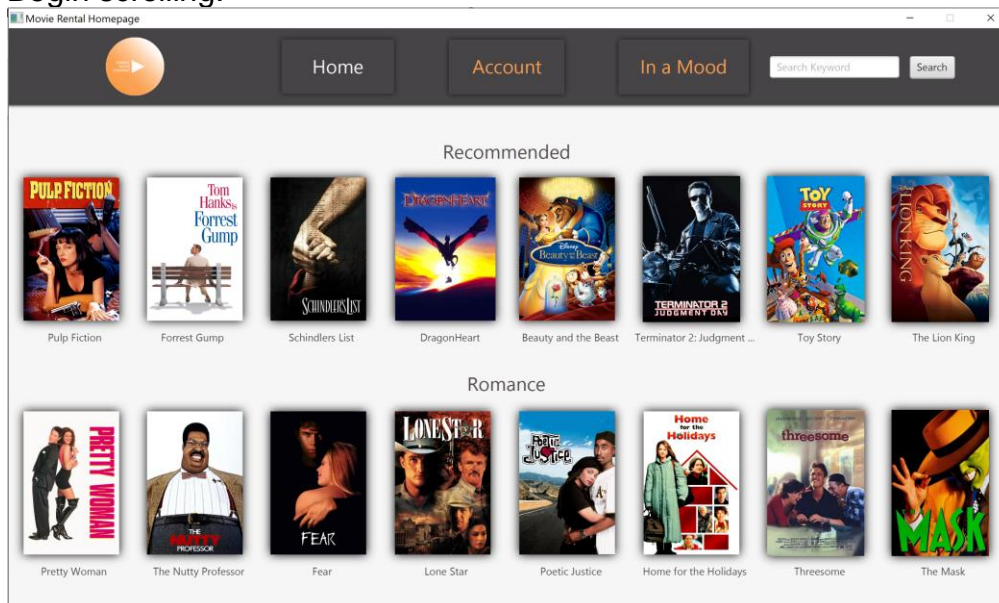

A screenshot of the same "Sign Up" web browser window. The form fields are the same as in the previous image. The radio button next to "I am over the age of 13" is now selected and is no longer circled. The "Sign Up" button at the bottom right is now circled in red.

5. Fill out your information and click the Sign-In button. This will bring you to your personal Home page.

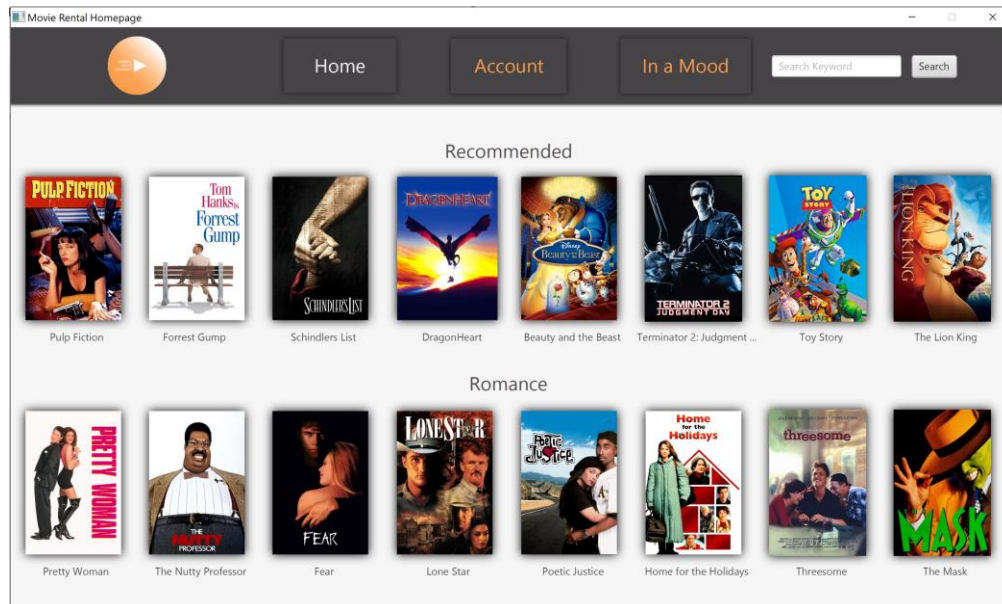

A screenshot of a web browser window titled "Sign In". The page has a dark grey background. At the top left is an orange circular button with a white right-pointing arrow. Below it, the text "Sign In" is centered. There are two input fields: "Username:" with the placeholder text "Please Enter UIN" and "Password:" with the placeholder text "Please Enter Password". Below the password field, there is a link "Sign Up Now" in orange text and a "Sign In" button in an orange circle, which is highlighted with a red hand-drawn circle.

6. Begin scrolling.

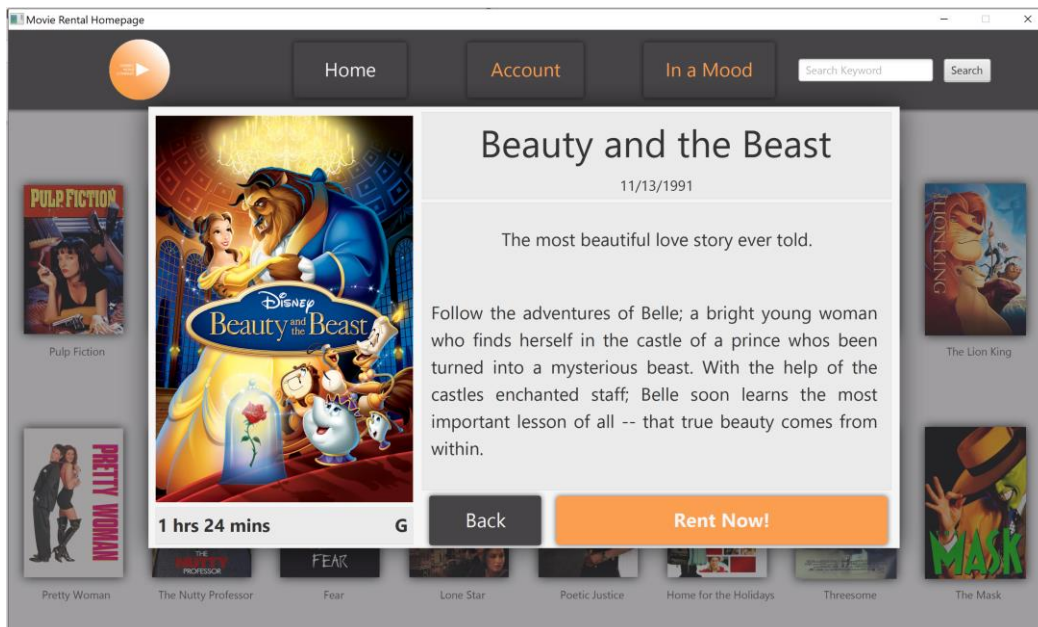

Software Usage

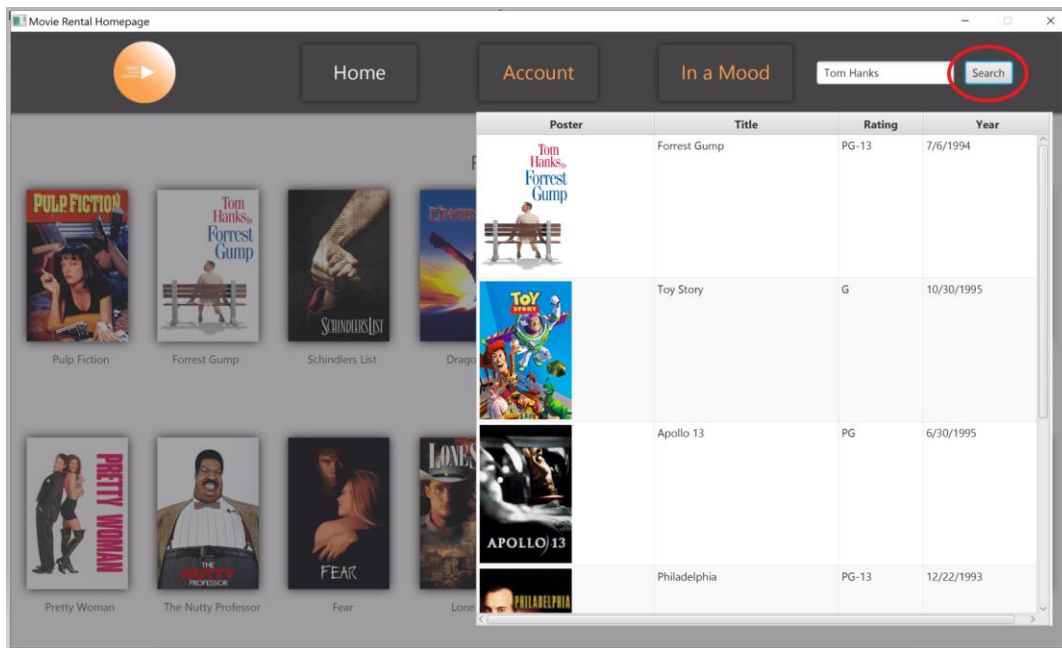

Home Page:

The Home page allows you to scroll through 5 categories of movies with 8 movies in each in category. You can click on a movie poster to see the details of that specific movie.

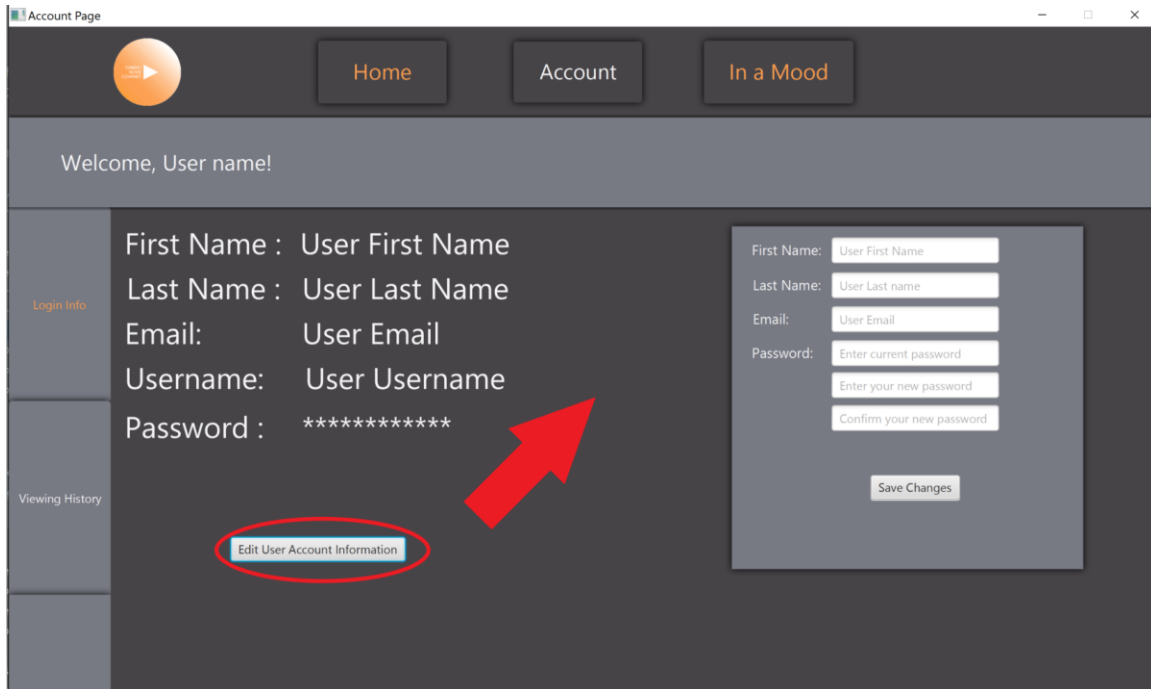

From the details page you can choose to go back and continue searching through movies, or you can choose the Rent Now button to watch the movie.

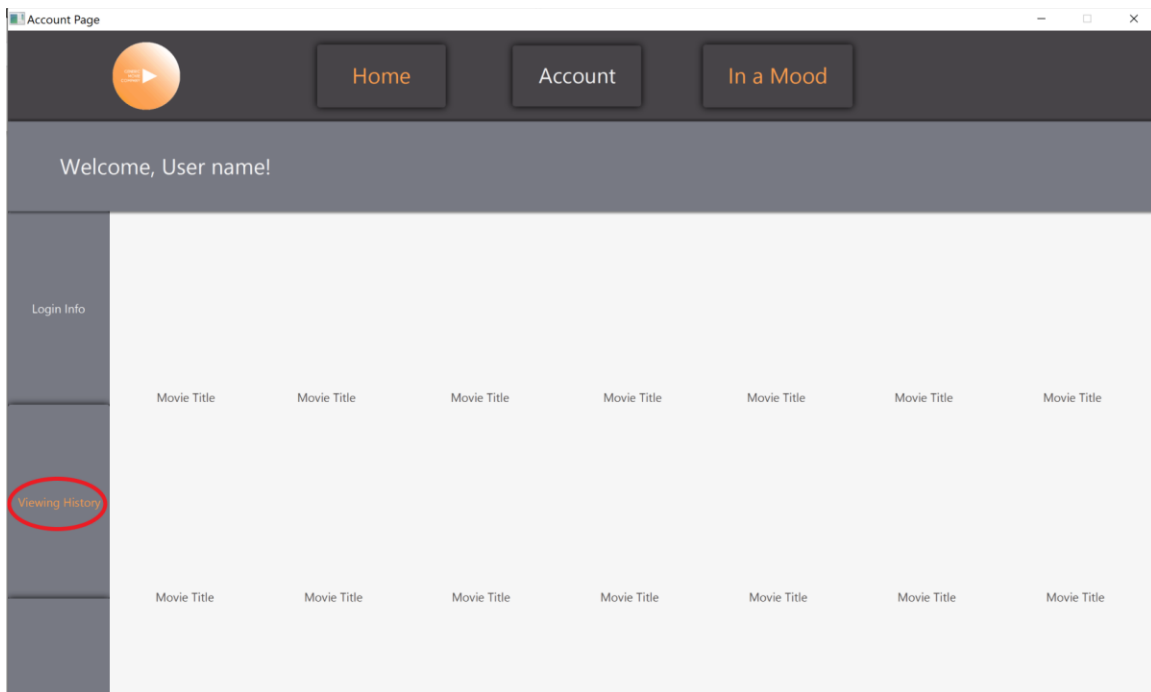

The search bar on the Home page allows you to type in keywords such as names of actors, names of movies, or genres. This will pull up any movies that have the keywords you typed in. You can then click on any of the movies that were found and the details page will come up on that movie. If you aren't satisfied with the movie that you choose, you can go right back to your current search.

Account Page:

The screenshot shows a web application window titled "Account Page". At the top, there is a navigation bar with three buttons: "Home", "Account", and "In a Mood". Below the navigation bar, a welcome message "Welcome, User name!" is displayed. On the left side, there is a sidebar with two buttons: "Login Info" and "Viewing History". The main content area displays user information: "First Name : User First Name", "Last Name : User Last Name", "Email: User Email", "Username: User Username", and "Password : *****". A red arrow points to a button labeled "Edit User Account Information" which is circled in red. To the right of the user information, there is a form with fields for "First Name", "Last Name", "Email", "Password" (with sub-fields for "Enter current password", "Enter your new password", and "Confirm your new password"), and a "Save Changes" button.

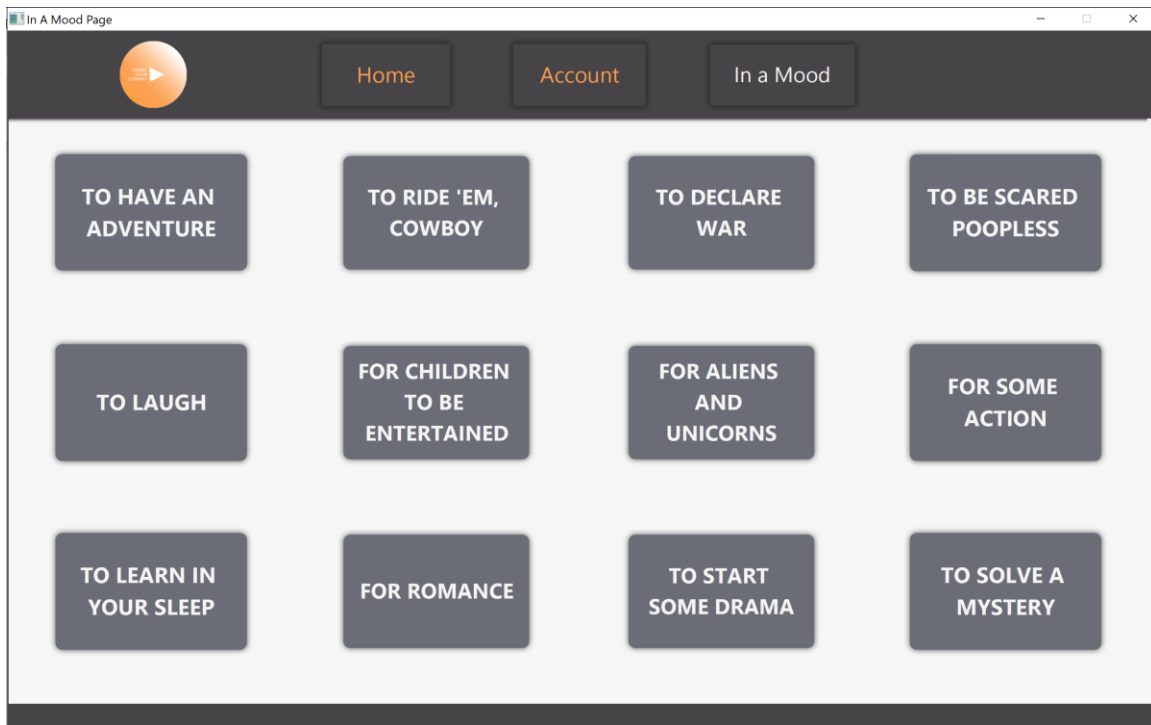

The account page shows your user information and allows you to change your name, email, and password by clicking on the Edit User Account Information button.

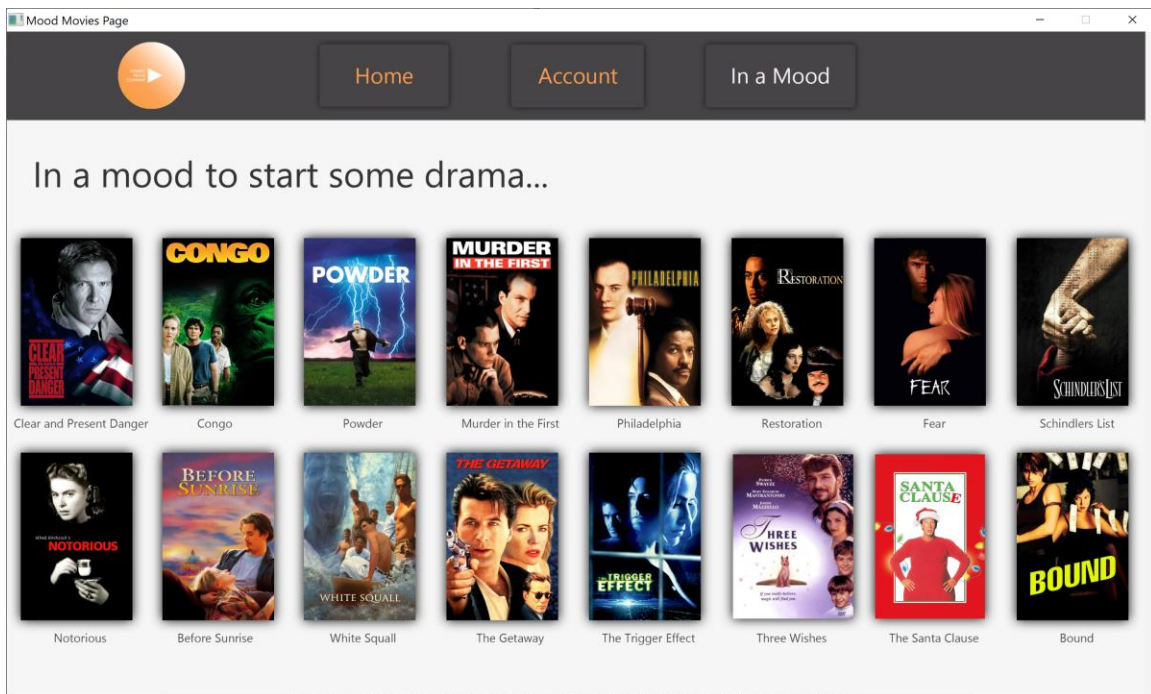

The screenshot shows the same web application window, but the "Viewing History" button in the sidebar is now selected and circled in red. The main content area displays a list of movies, with each row containing the text "Movie Title".

By clicking on the Viewing History button you can see all of the movies that you have watched completely or partially through.

In A Mood Page:

The In A Mood page has 12 buttons that you can click on based on the mood of you or anyone that is watching.

You can select between 16 or less movies in the selected mood.
